

RING	# OF TIMES BALL ENTERED
Outer Ring	50
Middle Ring	49
Inner Ring	15
Multi-Ball Ring	14

The graphics above show the Outer, Middle, Inner and Multi-Ball Rings and how many times the balls entered into them. The Outer Ring score was 10 points, the Middle Ring score was 25 points and the Inner Ring score was 50 points, the Multi-Ball Ring made the machine spawn 3 balls and destroyed the ball that went into it. I decided to keep the scores of the rings as they were, considering that with about a 100 balls, the inner ring only had 15 balls go into it.
